Corporate Governance Charter

1. Introduction

Corporate governance is a set of systems, policies and procedures which define the way in which entities – trust and companies alike – are governed. It establishes the objectives of an entity ensuring that administration and management is undertaken in a manner which is consistent with the interests of the entity's members. Additionally, it establishes a system for monitoring and evaluating the achievement of those objectives.

The Corporate Governance Recommendations define corporate governance as "the framework of rules, relationships, systems and processes within and by which authority is exercised and controlled in corporations".

Corporate governance policies will vary from entity to entity as there is no single system of corporate governance that is applicable to all entities. An entity must establish systems, processes and policies that help it achieve its objectives in light of the nature and size of that entity.

As a result, the Boards has adopted a number of policies to ensure that it has high-quality and transparent systems of corporate governance in place. These policies are incorporated in this Charter and are prepared in line with the Corporate Governance Recommendations which the Boards recognises as best practice guidelines.

The Charter incorporates the following:

- (a) Board Policy – see Section 2
- (b) Conflicts Management Policy – See Section 3
- (c) Continuous Disclosure Policy – see Section 4
- (d) Code of Conduct – see Section 5
- (e) Security Trading Policy – see Section 6
- (f) Insider Trading Policy – see Section 7
- (g) Risk Management Summary – see Section 8

- Ensuring that Security Holders and the market are kept fully informed with timely and relevant information which is in accordance with the continuous disclosure provisions outlined in Section 4.

2.5. Independence

The Corporate Governance Recommendations establish a number of factors that may be considered when assessing the independence of directors. The factors are whether a director:

- (a) is a significant member of the Fund, the Company or Responsible Entity or an officer of, or otherwise associated directly with, a significant member of the Fund, the Company or Responsible Entity;
- (b) is employed, or has previously been employed in an executive capacity by the Responsible Entity, the Company or another group member, and there has not been a period of at least 3 years between ceasing such employment and serving on the Boards;

These factors are only indicators of matters in which to assess the independence of a Director. The Boards will assess the independence of each Director in light of the interests disclosed by them. The Boards' assessment of the independence of Directors will be disclosed in the Fund's annual reports (to the extent deemed necessary).

2.6. Committees

The Responsible Entity and the Company recognise the importance of establishing remuneration and nomination committees as good corporate governance in circumstances where appropriate for the size, nature and complexity of the Fund.

However, considering the size of the Responsible Entity, the Company and the Fund, the functions that would be performed by these committees are best undertaken by the Boards. This is also in line with Corporate Governance Recommendations which recognise that "the ultimate responsibility of the integrity of a company's financial reporting rests with the full board".

At that time the Boards will adopt a policy or charter for such committees in accordance with the Corporate Governance Recommendations and industry best practices. As a registered managed investment scheme, the Trust has a compliance plan that has been lodged with the Australian Securities and Investments Commission (ASIC). The compliance plan will be reviewed every year to ensure that the way in which the Trust operates protects the rights and interests of unitholders and that major compliance risks are identified and properly managed.

All appropriate approvals must be obtained before contracts are executed. The Fund is committed to meeting its contractual obligations.
- (e) Executives and employees may not at any time, directly or indirectly, profit from confidential information obtained during the course of duties they perform in relation to the Fund. Each Executive and employee must safeguard confidential information of the Fund by not transferring, publishing, using or disclosing it other than when necessary in the ordinary course of business, or as specifically directed or authorised. All confidential or proprietary information that has been entrusted to the Fund by a third party must be treated as if it was the Fund's confidential information.
- (f) Public statements have the potential to breach the Fund's obligations in respect to confidential information, unit trading and continuous disclosure. Officers and employees should not make public statements unless authorized by the Chairman or Company Secretary.

Smoking and the use of recreational or non-prescription drugs is not permitted on the Company and the Responsible Entity's premises.
- (h) Information should not be gained through unlawful or deceitful means.
- (i) All Executives and employees have an obligation to seek to avoid financial, business or other relationships which might be opposed to the interests of the Fund or which may conflict with the performance of their duties. Where an employee or Executive has any doubt about conflicts of interest, the employee or officer should contact the Company Secretary.
- (j) Executives must use all assets of the Fund for proper purposes during their employment. No property of the Fund may be sold, loaned, given away, or otherwise disposed of, without proper authorisation.
- (k) The Fund's email and internet systems have been developed to assist communication with customers, suppliers and between staff. These facilities may not be used for personal gain or in a manner which may breach the law or is inappropriate for an officer or employee of the Fund.

5.6. Respect for Others

The Fund actively supports the principle of equal employment opportunity and expects its officers and employees to practise and support this principle. The Fund's policy is to ensure that it does not engage in discriminatory practices and to make employment and career decisions on the basis of each individual's ability, performance, experience and the Fund's requirements.

The Responsible Entity and the Fund regards personal, physical or sexual harassment as unacceptable. The Responsible Entity expects and requires its officers and employees to comply with Occupational Health and Safety laws and relevant policies.

The Fund's partners, customers and suppliers will be treated fairly and with respect. The Fund strives to maintain open and frank business dealings and to develop mutually advantageous relationships.

5.7. Improper Behaviour

Employees and Executives are encouraged to contact the Secretary where the employee or officer has a reason to suspect that any fraudulent or unethical behaviour has occurred.

5.8. More information

An employee or Executive requiring further information regarding any aspect of this Code should contact the Company Secretary.

6. Security Trading Policy

6.1. Security Trading Policy

The Boards have established the following policy to apply to trading in the Fund's securities. This policy applies to those persons defined below as Restricted Persons of the Fund.

Restricted Persons to whom this policy applies must restrict their buying and selling of Fund's securities within the Fund trading window established by this policy.

In addition to the requirements of this Security Trading Policy, all Restricted Persons (as defined below) must also comply with the Insider Trading Policy in Section 7 of the Corporate Governance Charter.

6.2. Executive restrictions on trading

This Security Trading Policy and the restrictions on trading in securities of the Fund set out below applies to the following representatives of the Fund (**Restricted Persons**):

- (a) the Boards;
- (b) Directors and Company Secretary of any entity controlled by the Fund;
- (c) any person who is entitled to receive equity performance rights and/or options as part of any equity incentive based scheme of the Fund;
- (d) the Company Secretary; and
- (e) Executives.

The Restricted Persons are to be subject to restrictions on trading in the Fund's securities at certain times of the year. Restrictions also apply where any Restricted Person is exposed to inside information in the course of their duties in accordance with the Insider Trading Policy (see Section 7 of the Corporate Governance Charter).

6.3. Associated Parties

Each Restricted Person has a personal responsibility to ensure that his or her "associated parties" (being immediate family (including a spouse (or equivalent) or dependent), family company or trust) complies with the same respective restrictions as apply to Restricted Persons.

6.4. Prohibition on Executives dealing in securities

In addition to the overriding prohibition on dealing when a person is in possession of inside information in accordance with the Insider Trading Policy, Restricted Persons and their associated parties are prohibited (unless otherwise agreed to by the Board) from dealing in securities during:

- (a) each period between 1 February and 48 hours immediately after the date upon which the Fund releases its annual financial statements on the ASX;
- (b) each period between 1 August and 48 hours immediately after the date upon which the Fund releases its half-yearly financial statements on the ASX;
- (c) each period 48 hours immediately after the date upon which the Fund issues a public announcement of the Fund's financial results.

The Boards may from time to time announce further periods of trading blackouts under this Policy as required. These blackout periods may include, among other things, periods in which information has become available to the Fund which impacts on a previously announced NTA as a result of completion of periodic revaluation of assets and assessment of provisions and accruals in the context of preparation

of the audited or auditor-reviewed financial statements of the Fund. Discretionary trading blackouts will be communicated to Restricted Persons by the Company Secretary.

For the avoidance of doubt, it is emphasised that Restricted Persons may not deal at any time whilst in the possession of “inside Information”.

6.5. Boards of Directors’ discretion

The Boards have an absolute discretion to place an embargo on Restricted Persons and/or employees and /or their respective associated parties trading in the Fund’s securities at any time.

6.6. Notification rules in relation to dealing in securities

Restricted Persons are required to notify the Fund of intended dealings in securities, by themselves or their associated parties, of the Fund prior to such intended dealings. This should be done by written notice to the Company Secretary outlining:

- (a) name of security holder;
- (b) type of proposed transaction (purchase, sale, etc.); and
- (c) number of securities involved.

The Company Secretary may confer with the Chairman of the Boards in relation to any proposed dealing.

6.7. Directors to notify ASX of security holdings

The Boards are required to complete, or request that the Company Secretary complete necessary forms to the Fund to be filed with the ASX in respect of their security holdings in the Fund for the purposes of section 205G of the Corporations Act and the Listing Rules.

6.8. Exceptional Circumstances

Where, in exceptional circumstances, and it is the only reasonable course of action available to a Restricted Person (e.g. a pressing financial commitment that cannot be satisfied otherwise) clearance may be given for the Restricted Person to sell (but not to purchase) securities in the Fund when that person would otherwise be prohibited from doing so.

In this section 1.8, “exceptional circumstances” means severe financial hardship, a court order (or court enforceable undertaking), or some other overriding legal or regulatory requirement, to transfer or sell securities in the Fund, or other circumstances that may be deemed exceptional by the Boards. For example, a Restricted Person may be in severe financial hardship if he or she has a pressing financial commitment that cannot otherwise be satisfied.

The Boards may not give clearance under the exception in section 1.8 if there is a matter about which there is inside information in relation to securities in the Fund (whether or not the Restricted Person knows about the matter) when the Restricted Person requests clearance or proposes to deal in securities in the Fund.

The Boards will decide if circumstances are exceptional.

Any clearance given by the Boards in accordance with section 1.8 must be in writing (which may be in the form of an email). The Boards must determine, and specify in the written clearance, the maximum duration of the clearance.

6.9. Trading not subject to this Trading Policy

The following dealings are not subject to the provisions of this Security Trading Policy in respect of the Fund:

- (a) undertakings or elections to take up entitlements under a rights issue or other offer (including an offer of securities in lieu of a cash dividend);

- (b) the take up of entitlements under a rights issue or other offer (including an offer of securities in lieu of a cash dividend);
- (c) allowing entitlements to lapse under a rights issue or other offer (including an offer of securities in lieu of a cash dividend);
- (d) the sale of sufficient entitlements to allow take up of the balance of the entitlements under a rights issue;
- (e) undertakings to accept, or the acceptance of, a takeover offer or pursuant to a scheme of arrangement implemented in accordance with section 411 of the Corporations Act;

 - (i) the exercise of an option under a savings related securities option scheme; or
 - (ii) release of securities from a profit sharing scheme;
- (g) the cancellation or surrender of an option under an employee scheme;
- (h) the purchase of securities or the communication of information pursuant to a requirement imposed by law;
- (i) transfers of securities by an independent trustee of an employee securities scheme to a beneficiary who is not a person;
- (j) bona fide gifts to a Director by a third party;
- (k) transfers of securities of the entity already held into a superannuation fund or other saving scheme in which the Restricted Person is a beneficiary;
- (l) an investment in, or trading in securities of, a fund or other scheme (other than a scheme only investing in the securities of the entity) where the assets of the fund or other scheme are invested at the discretion of a third party;
- (m) where a Restricted Person is a trustee, trading in the securities of the entity by that trust provided the Restricted Person is not a beneficiary of the trust and any decision to trade during a prohibited period is taken by the other trustees or by the investment managers independently of the restricted person; and
- (n) trading under an offer or invitation made to all or most of the security holders, such as, a rights issue, a security purchase plan, a dividend or distribution reinvestment plan and an equal access buy-back, where the plan that determines the timing and structure of the offer has been approved by the board. This includes decisions relating to whether or not to take up the entitlements and the sale of entitlements required to provide for the take up of the balance of entitlements under a renounceable pro rata issue.

7. Insider Trading Policy

7.1. Policy

The Board has established the following Insider Trading Policy to apply to trading in the Fund's securities.

This policy applies to all Directors, Executives and employees of the Responsible Entity. All Directors, Executives and employees of the Company and the Responsible Entity must not deal in the Fund's securities while in possession of price sensitive information.

In addition, the general Security Trading Policy (see Section 6) sets out additional restrictions which apply to Directors and Executives of the Company and the Responsible Entity.

The law imposes a number of significant restrictions on employees of the Company and the Responsible Entity when they deal in the Fund's securities. As fiduciaries, these persons must not utilise their position for their own gain or for the gain of any person other than the Fund.

The Corporations Act imposes severe penalties (both criminal and civil) on persons who conduct insider trading activities. Any perception of improper conduct by employees of the Fund also has the potential to substantially damage the Fund's reputation.

The Fund has established the policy set out in Section 7 of this charter in an effort to prevent the incidence of insider trading in the Fund's securities. The policy provides a general summary of the law in Australia in relation to insider trading, and as such operates in addition to the legal requirements. It is the personal responsibility of each Director, Executive and employee to comply with this policy.

7.2. Overview of the insider trading provisions in the Corporations Act

It is illegal for anybody to deal in any securities of a body corporate (including the Fund), when in possession of information that the person knows, or ought reasonably to know:

- (a) is not generally available (including information that the Fund has not disclosed to the market in accordance with the Fund's Continuous Disclosure Policy); and
- (b) might have material effect on the price or value of those securities if it was generally available (**Inside Information**).

This prohibition extends to procuring another person to deal, and, in the case of securities of listed entities, extends to communicating the inside information to another person, if the person knows, or ought reasonably to know, that the other person would, or would be likely to, deal in the securities in question or procure another person to do so.

To communicate Inside Information to another person is also an offence which carries both civil and criminal penalties.

An employee or officer in possession of Inside Information about the Fund has a duty to keep that information confidential and must not in any way disclose or communicate that information to any person.

7.3. Dealing with security analysts, institutional investors and journalists

An employee or officer may be exposed to others outside the Fund such as security analysts, institutional investors and journalists. It is important that all Directors, Executives and employees be aware that selective disclosure of non-public information may result in a breach of the insider trading rules.

It is important to emphasise that it is the mere fact of conveyance of the material non-public information that gives rise to liability, not the manner in which it is conveyed.

It is possible to convey information in breach of this policy and the Corporations Act by expressing subjective attitudes about the Fund's performance or by calling attention to selective information not available as an aggregate to the general public. It is essential to avoid the indirect conveyance of information by any means whatsoever.

If during the course of a discussion with any analyst, journalist or other outsider, material non-public information concerning the Fund is disclosed, inadvertently or otherwise, the recipient of the information should be informed of its non-public nature and cautioned against its use unless and until the Fund has made full public disclosure of the information. The Company Secretary should be notified of the situation immediately so that a decision can be made regarding disclosure of the information.

No public comments should be made regarding any previously undisclosed operating results or other developments unless authorised by the Company and the Responsible Entity.

8. Summary Of Risk Management System

8.1. Policy

This is a summary of the policy and procedures of compliance and risk management for the Responsible Entity and the Fund.

This policy, as modified from time to time, will be presented to the Board or relevant committee. This document may be amended with the approval of the Compliance Officer.

8.2. Objective

The purpose of this policy and related procedures is to establish a system that will endeavour to minimise the risk of failure to comply with laws or regulations impacting on the business activities of the Company and the Responsible Entity. Furthermore, the purpose is to establish a system for identifying and managing risks attendant with those business activities.

This policy and related procedures have been developed to demonstrate fulfilment of the responsibilities of the Responsible Entity for its Australian Financial Services Licence (**AFSL**). These responsibilities are to establish:

- (a) compliance measures to ensure, as far as reasonably practicable, that it will comply with its licence
- (b) conditions and the financial services laws; and
- (c) a risk management system.

8.3. Application

This policy and related procedures apply to all staff and employees of the Responsible Entity and the Investment Manager. They also apply to all agents and contractors to the extent permitted by the contracts and the natures of those relationships.

8.4. Commitment

The Boards are committed to implementing and maintaining an integrated compliance and risk management system. The application of this policy and procedures evidences this commitment.

The Boards are ultimately responsible for the Fund's compliance performance and for the Trust complying with its Compliance Plans and relevant laws.

Furthermore, in relation to the Trust, a Compliance Committee (**Committee**) has been appointed by the Responsible Entity consisting of a majority of external members. The duties of the Committee are set out in subsection 601JC(1) Corporations Act, which are:

- (a) to monitor to what extent the Responsible Entity complies with the scheme's compliance plans and to report on its findings to the Board;
- (b) to report to the Board:
 - (i) any breach of the Corporations Act involving a scheme: or
 - (ii) any breach of the provisions included in a scheme's constitution of which the Committee becomes aware or that it suspects; and
- (c) to report to the ASIC if the Committee is of the view that the Responsible Entity has not taken, or does not propose to take, appropriate action to deal with a matter reported under paragraph; and

- (d) to assess at regular intervals whether the schemes' compliance plans are adequate, to report to the Board on the assessment, and to make recommendations about any changes that it considers should be made to the plans.

The formation of the Committee evidences the commitment of the Responsible Entity to implementing this policy in relation to the Fund.

Reports on the implementation, effectiveness and review of the compliance and risk management system will be presented to the Committee on a regular basis.

8.5. Management Responsibility

The Compliance Officer will be responsible for reflecting the commitment of the Boards to all staff and agents engaged by the Responsible Entity. Furthermore, the CEO will be responsible for overseeing the implementation of these procedures and for engendering an organisational culture that will support the compliance and risk management objectives of the Boards.

Directors and staff will be responsible, and held accountable, for the compliance performance and risk management of the business activities of which they have control.

It is therefore incumbent on managers to provide staff with training or information on this policy and related procedures. It is incumbent on both staff and managers to consider this policy and procedures when undertaking their duties.

8.6. Resources

The Boards will ensure that adequate resources will be made available to support the integrated compliance and risk management system. A Compliance Officer will be appointed by the Responsible Entity and the Company to implement this system. The Compliance Officer may be engaged either as an employee or as a contractor.

The Compliance Officer will report to the Boards. However, if necessary, the Compliance Officer may approach the Boards and Compliance Committee directly.

8.7. Continuous Improvement

The Boards are committed to a philosophy of continuously improving its compliance and risk management system. This will be achieved by:

- (a) the Compliance Officer keeping abreast of best practices;
- (b) fostering a compliance and risk awareness culture within the Company and the Responsible Entity;
- (c) undertaking specific training and retraining of staff to foster compliance and risk awareness;
- (d) encouraging innovation in compliance and risk management development, procedures and processes; and
- (e) recognising exemplary compliance behaviour by teams and individuals within the Company and the Responsible Entity.
